SUPPORT TO KURDISH PEOPLE IN TURKEY

Euromed Feminist Initiative IFE-EFI expresses our full solidarity with people living in Kurdish towns of Turkey that face crimes, abuse of human rights, oppression and destruction. People are displaced, forced to migrate from their homes once again, they are denied their fundamental rights to security, health, education, dignity. Women are the first victims of the repression.

IFE-EFI joins the call for action of women's rights organizations, human rights defenders, academics, journalists and politicians in order to prevent this murderous attempt to massacre the population in entire districts.

Euromed Feminist Initiative IFE-EFI demands from the Turkish State authorities to lift the military curfew in Kurdish towns, to withdraw police and military forces, to declare a cease-fire, end the policy of isolation upon Abdullah Öcalan and to relaunch the peace negotiations.

Euromed Feminist Initiative IFE-EFI is a policy network of women's rights organizations from the two shores of the Mediterranean advocating for gender equality and women's rights as full part of democracy and citizenship, for the right of people to self-determination, against militarism, war and occupation.
