EuroMed Feminist Initiative

EuroMed Feminist Initiative (EFI) is a policy network that provides expertise in the field of gender equality as inseparable from democracy building and citizenship, and advocates for political solutions to all conflicts, and for the right of people to self-determination.

EuroMed Feminist Initiative seeks to achieve positive change in the whole society by acting in three strategic areas of intervention: policy development and public support, peace, democracy and dialogue, and equal access to decision-making power and resources at all levels.
